

Name: Molly Deaville

Hall: Bowsden Court

Position applied for:

Social Secretary

Manifesto:

I am an organised, confident and enthusiastic person who would love to become Social Secretary in order to allow more social interaction between people in my halls. I have a contact time of nine hours and so can put my upmost time into organising events! I often find myself organising my social group and it was suggested by my friends that I apply for this position. I have many Ideas and would be extremely excited to put them in action such as a end of summer BBQ , bar tours, trips to Leeds/ Durham. I have no problem speaking to new people, I also have an easy going nature which allows me to get along with people with ease and be extremely comfortable in social situations. Bowsden is a small halls and I have the advantage of knowing most people, the residents this year are already really sociable so I feel we can get a lot of fun ideas for socials and lots of people would be willing to come along! I would finally like to show that although small Bowsden is a fun place to live, the small nature only making it easier to become closer to residents, as opposed to the 'quiet, boring' reputation it seems to have acquired. I would relish this opportunity.
