2020 WELCOME TO THE COMMUNITY IMPACT AWARDS

Katie Smyth
President 19/20

Oi oi everyone, although it's undeniably strange having to present these awards to you virtually this year, and was definitely not something any of us thought we'd be doing. I'm really pleased we're still able to come together to congratulate all of our amazing students and give them the recognition for all the hugely impactful work they've done this year, in the community and beyond.

Please know that all of your hard work never goes to waste, and should be rightly recognised, as now more than ever, community is key. It would've been easy, given the recent circumstances to sit back, but no, our students go from strength to strength when faced with challenges. Personally I feel it has never been more fitting nor special to be able to stand together (virtually), in honour of these winners.

Newcastle University students prove themselves in so many ways all year around, and community is just one of the areas where our students continuously flourish and give so much back to their local communities!

...You inspire me on the daily, now let's move onto the more important bit, the awards...
